***Inc.* Magazine Unveils Its Fourth Annual Exclusive List of America's Fastest-Growing Private Companies—the Inc. 5000**

**Managed Business Solutions Ranks No. 2756 on the 2010 Inc. 5000  
with Three-Year Sales Growth of 33%**

**NEW YORK, August 24, 2010** -- *Inc.* magazine today ranked Managed Business Solutions (MBS) No. 2756 on its fourth annual Inc. 5000, an exclusive ranking of the nation's fastest-growing private companies. The list represents the most comprehensive look at the most important segment of the economy—America's independent-minded entrepreneurs. Music website Pandora, convenience store chain 7-Eleven, Brooklyn Brewery, and Radio Flyer, maker of the iconic children's red wagon, are among the prominent brands featured on this year's list.

"The leaders of the companies on this year's Inc. 5000 have figured out how to grow their businesses during the longest recession since the Great Depression," said Inc. president Bob LaPointe. "The 2010 Inc. 5000 showcases a particularly hardy group of entrepreneurs."

"I am honored and delighted to have MBS make the Inc. 5000 list for the fourth consecutive year. We've made remarkable achievements for being a relatively small company in a very large market, said MBS General Manager, Jon Duncan. Our approach is to offer best-in-breed customized solutions based upon the unique needs of our customers."

The 2010 Inc. 500|5000 is ranked according to percentage revenue growth when comparing 2006 to 2009. To qualify, companies must have been founded and generating revenue by June 30, 2006. The minimum revenue required for 2006 is \$80,000; the minimum for 2009 is \$2 million. As always, *Inc.* reserves the right to decline applicants for subjective reasons. The top 10 percent of companies on the list constitute the Inc. 500, now in its 29th year.

Despite the fact that most of this year's measuring period of 2006-2009 took place during the latest recession, aggregate revenue among the companies on the list actually increased to \$321.6 billion, up more than 50 percent from last year. The effects of the recession are seen, however, in the median three-year growth rate, which dropped to 96 percent from last year's 126 percent. This year's Inc. 5000 employ a record 1.4 million people, up from one million on last year's list. With unemployment remaining stubbornly high, policymakers and business
